Supervision genogram

Supervision genogram sheet. Symbols follow McGoldrick, Gerson and Petry (2020). The lines marked with an asterisk are conventions of this sheet.

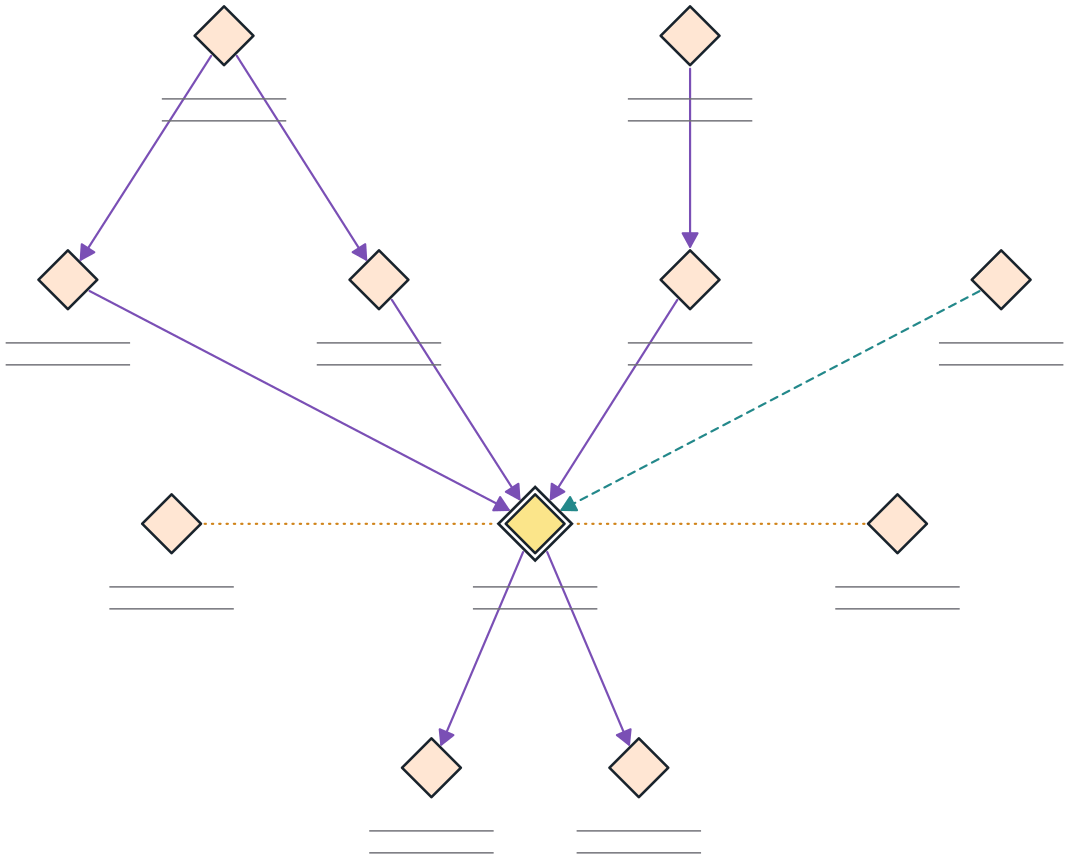

Made with Genogram Builder

Supervisors of your supervisors. Write in the people who supervised the supervisors below them, where you know them.

Your supervisors and trainers. Write the role or the setting under each name and the years on each line.

You and your peers. A dotted line joins you to a peer, such as a member of your cohort or a consultation group.

The people you supervise. Write a role or initials rather than a full name.

Each person is drawn as a diamond, so the sheet assumes no gender. Where gender matters to your reflection, draw the symbol that fits over it.

Add a line for each supervisor, trainer or peer the sheet leaves out, and cross out any place you do not need.

Key ◇ Gender unknown ▣ Index person → Supervision * ⇢ Training * ····· Peer *

Name or initials _____ Programme _____ Date _____

Supervision models you were taught _____ Questions to take to supervision _____
