Twins genogram

Twins genogram sheet. Symbols follow McGoldrick, Gerson and Petry (2020).

Made with Genogram Builder

Grandparents. Fraternal twins can run in families, so ask whether a grandparent, an aunt or an uncle was a twin and draw the pair beside their brothers and sisters.

Twins. Both lines start from one point on the sibling line. Draw a bar between them for identical twins. Where the type is not known, write type not known beside the point.

Siblings. The oldest is drawn on the left and each younger child to the right, with the twins in their place in the birth order. Keep a twin who died, with an X through the symbol.
